

### **Linea Weatherboard**

Fibre cement cladding known for its crisp modern lines and low-maintenance durability. Excellent for high-performance builds.

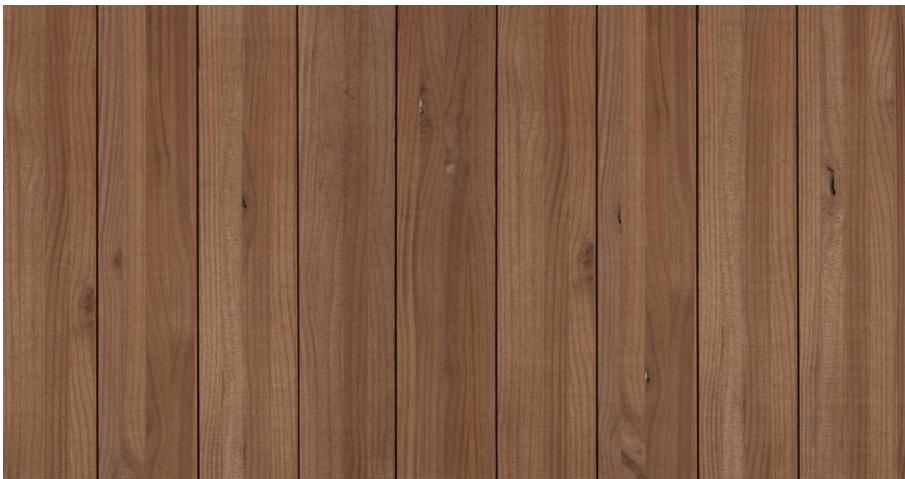

### **Timber Weatherboard**

Classic bevel-back weatherboard made from treated NZ pine. Natural, breathable, and timeless in design.

### **Abodo Cladding**

Locally sourced, FSC-certified sustainable timber. A modern cladding solution for eco-conscious builds.

### **Vitex Decking**

Durable Pacific hardwood with a clean grain and superior performance in NZ conditions. A favourite for high-end decks.

### **Pine Decking**

Premium treated pine decking boards offer an affordable, easy-to-install solution for outdoor spaces.

### **Radiata Pine**

A versatile NZ-grown timber treated for exterior durability. Great for framing and cost-effective structures.

### **Red Stag TimberLab**

Engineered CLT and LVL panels made in NZ. Strong, sustainable, and ideal for large-span or commercial builds.

**NZ Construction Materials by INSPEC**

### **saveBOARD**

Innovative, moisture-resistant panelboard made from recycled TetraPak packaging. Ideal for dry linings.

### **Eucalyptus Decking**

NZ-grown eucalyptus with high durability ratings - a strong alternative to imported hardwoods.
